OBJECTIVE

I am a 4th semester Computer Science student at BINUS University with a genuine love for building things that matter, from AI-powered health tools to full-stack web platforms and the occasional research paper. I believe the best technology doesn't just work, it feels right. Outside of code, I lead a student music organization and compete nationally in tech competitions. Apple Developer Academy is the place where I want to bring all of that together and push it further.

EDUCATION

BINUS University

Jakarta

Bachelor of Computer Science, GPA 3.94

Sep 2024 - present
